Sherry-Wine Bitters.

THE Proprietor of this medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters that they possess a pre eminence over all others now in use, for the diseases which they profess to cure

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful adult and declining life

The extensive sympathies which subsist between these and every other part of the living body is the foundation of Nervous Diseases of all kinds—Irregular Appetite, Languor Drowsiness, Wandering Pains, Headache, Lowness of Spirits, &c

And these in their turn, give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice, Piles, Fever Inflammatory Humors Coughs and a host of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters is most striking, their operation being more or less powerful, according to the violence of the disease When used in appropriate quantity, in cases of slight derangement of the Stomach and Bowels, caused by costiveness or a slight bilious difficulty and the like, where nature needs assistance to prevent more serious consequences, they will be scarcely felt

On the contrary, in obstinate cases they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified This accomplished they act on the system in connection with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

RUST PROOF IRON,

FOR

ROOFING, WINDOW SHUTTERS, &c

THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust having now been tested several years, both in this country and in Europe They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate Iron, Zinc, &c, or any other metal now used for roofing, and consequently form a much better and tighter roof, requiring far less frequent repair, whilst the first cost is but a trifle more

The subscribers would also call the attention of all dealers and workers in metals to the many other purposes to which Iron thus protected, can be applied In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere And they would especially call the attention of those interested in TELEGRAPHIC LINES to their Galvanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal

Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire &c, they will be able to furnish any article which may be desired A supply of Plates (manufactured in Europe,) constantly on hand from 16 to 32 wire guage GEO B MOREWOOD & CO,

A Tragic Affair.

On Saturday evening last, a colored man by the name of George Brown, aged about nineteen who has for some time been at work at the Penobscot Exchange shot a mulatto girl by the name of Mary Crane, aged about seventeen, and then shot himself in the mouth.

The circumstances were, that he called at the house of Mrs Gardner in a part of the city known as Barkerville, where with Mary and several other persons he spent some time in ordinary conversation. He at length asked for a drink of water and Mary stepped through an entry and into another room to get the water when Brown followed her. Immediately the report of a pistol was heard and the scream of Mary that George had killed her,—this was followed as quick as thought by the report of another pistol and the falling of Brown apparently dead upon the floor. Information was sent to the city marshal and he obtained medical aid and proceeded to the place of disaster.

Doctors Barker and Morison found the girl Mary shot in the neck just back of and below the ear the ball being probably imbedded in the lower part of the skull behind the ear. She will probably recover unless inflammation of the brain should follow.

Brown was supposed to be dead, and was lying upon the floor. Upon examination he was found [illegible]. He had fired the pistol into his mouth sidewise breaking his lower jaw and lacerating the sides of his mouth and under lip so that it fell down upon his neck. He will probably recover. They were both tolerably comfortable yesterday.

It seems that Brown has for some time been seeking the consent of Mary to marry him but without success. Mary though only seventeen, has a child two years old but still not disposed to marry Brown the latter probably in a fit of desperation or jealousy attempted to put an end to her life and his own at the same time.

Greenleaf's Arithmetics.

We have before us a new edition of Greenleaf's series of arithmetics designed for common schools and academies. We have heretofore spoken of the former editions of these arithmetics, but we notice in the present edition an enlargement as well as improvements. Many of the rules are expressed with more precision and clearness and are accompanied with more complete illustration. Some new rules are adopted to facilitate calculations and many new interesting and practical examples have been inserted. The part of the work which relates more particularly to mercantile transactions, is much more complete, several new and important articles having been introduced. The "Cancelling Method," instead of being placed in an appendix, is now presented in the body of the work, in connection with the rules to which it may be applied.

Perhaps it is sufficient to say that this series of arithmetics have been recommended in this State and have been introduced into a large number of schools.

The publishers seem to understand their duty in making well printed and durable books, as all can see by an examination of these.

A New Singing Book with the Old Tunes.

We have received from Messrs G R Smith & Co a singing book of 248 pages entitled Ancient Harmony Revived by Messrs G W Fargo and Jesse Pierce and designed to give in a convenient and reliable form those approved old church tunes which made so important a part of the social and public worship of our Fathers. This book brings before the public the spirit and essence of the idea which originated in this city some two years since of reviving the old tunes and waking up the old singers. The Billings and Holden Society of this city and old singers generally particularly those of the white haired cast will rejoice in being able to get hold of this new book with all the soul stirring tunes of the past.

Thanksgiving is Coming.

We wish very gently to whisper to our friends, that we have connected with our establishment, including our workmen, four married men, and all have families, some of them reaching as high as nine, and they will expect the means by which to observe the annual Thanksgiving after the olden time. We shall expect then a great hurrying on the part of many to bring us turkies, geese, chickens, ducks, hogs, pigs, beef, mutton, eggs, butter, cheese, milk, potatoes, turnips, squashes, corn, wheat, rye flour, meal, wood, &c, &c. All those indebted to us who have none of these things to part with, nor any of the &c, may bring or send us the money. We shall be *thankful* even for that.

Bishop Burgess is distinguished, says the Hartford Times, for the effectual teaching of religion by a [illegible] christian example. He is an ardent friend of popular education and the charitable institutions of the day. He will be cordially welcomed to Maine.

PENOBSCOT COUNTY TEACHERS' INSTITUTE.

FIFTH DAY

Friday Nov 19

AFTERNOON

The Institute met at Market Hall.

Mr Thurston gave a familiar lecture upon the method of teaching grammar, it being a continuation of the subject commenced in a previous exercise.

An animating song was sung and the Institute separated. One division went to Mr Littlefield's school room where Mr Worcester gave a lecture upon the subject of Geography explaining why the line of perpetual snow is higher at [illegible] than at the Equator, why it is colder in the Western than in the Eastern continent, in the same Latitude, and also other interesting geographical phenomena.

He then related many curious facts concerning the knowledge of geography possessed by the ancients. Several inquiries were made by different members of the division, concerning the Aurora Borealis, the winds the tide, and temperature. These questions and their answers [illegible] a strong desire on the part of many to explore more fully the [illegible] and laws.

The [illegible] assembled at Mr Woolson's school room where Mr Weston gave an amply [illegible] practical exposition of the [illegible] used in reading [illegible] members of the Institute, read various selections.

The readings under the direction of Mr Woolson are beginning to show his happy faculty in imparting an available knowledge of his art.

In the evening, the Institute attended the meeting of the Lyceum, at Market Hall and listened to an able lecture by Hon Horace Mann on Great Britain. It was a lecture of great power. The great facts in England were clearly shown and the result of the intense spirit of selfishness was brought vividly before the mind.

The greatness and the glory of England were shown to rest like a beautiful and gilded and heaven reaching temple upon a foundation of restless cobble stones.

A vivid picture was drawn of the grandeur and power, of the comparatively small island, in point of territory, which, as the lecturer expressed it, were it sunk in some of our inland lakes, would scarce impede their navigation, and yet she is emphatically great in wealth, commerce, manufactures and strength, occupying the highest post among nations at least, in the old world, (national vanity, perhaps, makes one exception in the new,) extending all her [illegible] arms over every portion of Christendom by her enterprize and potency—Her world wide influence is felt in every part of the habitable globe. Her commerce [illegible] every sea and clime. Her national flag floating triumphantly in every breeze.

Her glory was in strikingly vivid [illegible] graphically portrayed, and yet, with all her power, magnitude and splendor she is the most [illegible], and most corrupt, the most suffering nation,—England with a population of seventeen millions has a million and a half of paupers. Her whole land property in the possession and ownership of only thirty thousand [illegible]. [illegible] divided into three classes, the first, consisting of the thirty two thousand landholders. The second, of farmers, who rent their lands, not possessing the fee of a single foot of the soil, the third, of the three and a half millions of laborers, [illegible] in mud hovels, in equalled misery and abject poverty.

In her manufactories, and in her mines, the most horrible suffering was exhibited—women placed in the most arduous occupations, compelled to perform the labor of [illegible] brutes, children of the most tender age, scarcely old enough to lisp their words, forced to [illegible] services, and submit to cruel usage, from twelve to fifteen hours per day, and to bear burdens exceeding their own weight, continually from dawn till night. A night [illegible] huddling together of every age, sex and description of persons, the corrupt and the debased polluting the infant mind from generation to generation. Over the portals of the habitations of these various classes, laborers, operatives, and miners, says the lecturer, there is no need for the inscription, "Hope never enters here."—It is so apparent.

His exhortation was an eloquent appeal to every American, to encourage education in all classes, and from the examples of misery, corruption and distress which were thus exhibited abroad to take a lesson. And by the careful dissemination of learning and correct principles to produce a commendable emulation in all classes, and thus create a bulwark to preserve us against similar evils.

Singing Mouse.

The last number of the Journal of the Franklin Institute describes as the following notice, a natural curiosity which had been exhibited at the September meeting of the Institute.

"A natural curiosity was next exhibited which excited considerable interest. This was a Singing Mouse, which, though declining on this occasion to perform in its best style, yet gave sufficient proof that its musical powers are wonderful for an animal of its kind. It is a common domestic mouse, Mus Musculus, and in appearance differs in no remarkable particular from others of its species.

It was the [illegible] that led to its capture. A lady, who kept some canary birds in her room through the day, but who was in the habit of having the cage removed to another apartment for the night, happened to hear, after retiring, a musical chirping in the room, apparently [illegible]. The Congress and Cyane are already at La Paz. It is the intention of Com Shubrick to take possession of and occupy Mazatlan, placing a garrison of 250 men there, and to destroy the fortifications of Guaymas, San Blas and Acapulco. A new declaration of blockade has been prepared which will be rigidly enforced. What part of the coast is included in it, we do not know. The Americans have long since taken San Jose.

The Spelling Reform, or Phonography and Phonotypy, Again.

Although the 'bait has been taken' the fish finds himself so far from being hooked that he is tempted to try another nibble.

Every one who has examined the subject is aware that a few words by their constant recurrence form the greatest part of spoken or written language, and that these words are composed of a small portion of the letters of either our spoken or written alphabet. Of this frequent repetition of a few words, and letters all printers must be aware, and in the type case, whether for the old style or the new, these most common letters are placed nearest the compositor. In this respect I think it will be found that the reformed system is quite as favorable as the old while the dropping of the silent letters will more than compensate for what few additions must be made to the number of boxes actually used in setting up every paragraph.

In regard to the other 'fixins' of which 'Typo' has made such display, and many of which he estimates are useless,—those that are of any importance hold their places in the 48 boxes which are still employed in composing of the letters.

But as this matter is of little general interest I pass from it with the remark that *examination* must convince '*typos*' as well as *common sense people* of the advantage even to printers, of spelling Phonetically. 'Typo' has called my samples of phonetical spelling (which by the way were not free from *typo*_graphical errors) to prove that all words can be spelled as they are pronounced by the old letters alone. A few considerations will show the fallacy of that idea. We have *fifteen* simple vowel sounds, to denote which we have but *five* signs a, e, i, o, u, and [illegible] *wanted* his diphthongs, viz [illegible], and [illegible] which have no sounds of their own we have but eighteen signs to denote twenty four consonant sounds, making [illegible].

Now what friend 'Typo' so earnestly [illegible] simply the adding of a sufficient number of letters to the alphabet to give to each of these simple elements of speech (with the addition of a few diphthongs) a distinct and separate sign, and that each sign (a letter) shall invariably represent the same sound,—the only way in which we can spell by sound, or according to the

Shipping Children in Barrels.

New York papers record an account of three children, three five and seven years old, being found on board the ship Liverpool, lately arrived from Liverpool, of whom neither the captain nor officers had any knowledge. It was afterwards ascertained that the mother of the children lived in Ireland and the father in this country. The former smuggled the children on board the ship in [illegible] and left them to the tender mercies of the steerage passengers who supplied them with food as best they could. The New York Commercial says that they arrived safely and seemed contented and happy at the prospect of seeing their father, with which perhaps, release from confinement had something to do.

It is not probable that these children remained in the [illegible] during the whole voyage of thirty days, but resorted to them as hiding places during the visits of the officers of the ship.

BY THE LAST MAIL.

ELEVEN DAYS LATER FROM EUROPE.

ARRIVAL OF THE *ACADIA.*

HIGHLY IMPORTANT Commercial Matters!

More Failures of Merchants, Bankers and Manufacturers.

Continued Commercial Distress!

The Royal Mail steamship Acadia, Capt. Shannon, from Liverpool, Nov 4th arrived at her moorings at East Boston, on Saturday.

We make up the following summary principally from Wilmer & Smith's European Times.

The Commercial news is exciting and highly important and consequently demands a large share of our space.

The Queen had issued a proclamation for calling Parliament together for the despatch of business, on the 18th inst.

The European gives a list of *fifty three* heavy firms which have failed since the sailing of the last steamer.

On Tuesday the 19th ult a deputation of Liverpool Merchants waited on Lord John Russell in Downing street, and set forth in earnest terms all the evils under which the town and the general commerce of the country were laboring. An advance on the credit of the country was solicited. The Government, however, firmly, but in the most considerate terms, refused the application and in three or four following days the mercantile pressure considerably increased. Banks in various parts of the country failed.

On Saturday, the 23d ult, Mr Masterman and Mr Glyn, at the head of a deputation of London bankers, called upon the Prime Minister in Downing-st, and were immediately admitted to an audience.

They represented the intensity of the panic, the impossibility of allowing matters to continue without making some effort to alleviate the pressure, that the bankers were full of money, but not one dared to part with it to his customers for fear of a run upon him, and their statements produced such effect on the mind of the Minister that he promised on the Monday following to give them an answer. Mr Rothschild also visited the Minister. When the news of these interviews transpired a better feeling in the city was the result. Consols and shares somewhat rallied.

The Directors of the Bank of England on the 25th were induced by the interference of the government to pass the following resolves:—

"That the minimum rate of discount on bills not having more than 95 days to run be 8 per cent.

"That advances be made on bills of Exchange, on Stock, Exchequer Bills and other approved securities in sums of not less than £2,000, and for periods to be fixed by the governors, at the rate of 8 per cent per annum."

The effect of this measure was electrical in the general [illegible] in their account the market became wild, consols on one day or two advanced, after the most violent fluctuations, not less than five per cent upon their extreme point of depression of the previous week.

The excitement and rise of stocks proved evanescent. After the first general rush of prices upwards, [illegible] the working of the measure and Stocks [illegible] stationary and then proceeded [illegible].

The Liverpool Cotton market since our last publication has been [illegible] dull and gloomy. Few sales have been effected, and the general tendency of prices has been downward.

Besides the mercantile failures we have to record the stoppage of several banks in various parts of the country. The North and South Wales [illegible] a mischievous report, which caused a run upon the bank.

In Liverpool Flour advanced to 29s per barrel, [illegible]. Wheat was held for the same advance, but sales were not so readily effected. Indian Corn was 1s higher. The arrivals of Flour in London were chiefly Canadian, [illegible] from 24s to 27s per barrel. In Liverpool the demand for Flour [illegible] active and the deliveries exhibit a diminution. Yesterday States and Canadian Flour met a good inquiry, 29s 6d and even 30s per barrel were paid for fine quality, but the latter rate was only obtained in a few instances for choice descriptions.

SWITZERLAND

On the 18th ult, nearly the whole village of [illegible], Canton de Vaud, Switzerland was destroyed by fire. Fifty two houses were entirely consumed, and 220 persons, most of them poor, are left without a shelter.

The intelligence from Switzerland is still contradictory, but on the whole, appears [illegible] pacific in its character. At the meeting of Swiss [illegible] a conciliatory spirit is said to have been manifested by the majority.

In Italy the Austrians evince no intention whatever of evacuating the position which they have assumed.

In the meantime the Pope, by his endeavor to secure peace, not only throughout his own states but also in Naples and Switzerland is laying the solid foundation for a still more glorious career. The Sultan has come to the resolution of henceforth placing the Christians of the Lebanon under the direction of a representative of the Holy See, thereby rendering the interference of France wholly unnecessary in the Turkish Empire.

Advices from Genoa of the 25th ult announce the arrival of the French fleet.

At Parma on the 20th ult, tranquility had been perfectly restored.

The Austrians still keep possession of the town of Ferrara. Some disturbances have lately taken place.

Hardship and Death at Sea.

Barque Medora, at Mobile, from Boston, reports speaking on the 28th of October, lat 30, schooner Curlew, 15 days from St. Domingo for ——, in distress, all the crew and two passengers being sick with fever. The mate and one man had died. The captain had been on deck for eight days alone. The Medora supplied her.

☞ The election of State Officers in Mississippi has resulted in favor of the Locofocos. They have secured, also, *three* members of Congress, the Whigs have *one* in Vicksburg District.

THE

GRAEFENBERG PILLS.

THERE ARE THE MOST CONCLUSIVE REASONS why that class of Medicines denominated "PATENT," should be made the means of incalculable and enduring blessings to the human family Suppose, for example, that a high order of talent, long and sagacious observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL Why may not this long devotion to this division of medical science be crowned with the success that attends the sacrifice of similar talents and toil in other things? There is no reason, and it is but the simple dictate of the simplest common sense to say that a Pill thus produced will be as perfect an article as can be made by man *Twenty-five years devoting* to any one subject will give a man of ability the mastery over it This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science

It will be seen, in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME The mariner's compass, for instance, was not invented until in the "fullness of time" it was needed. The *loadstone* always lay at man's feet but he never knew what a wonderful and unerring guide was treasured in its silent bosom, until the Divinely appointed time drew near when distant continents and islands were to be unveiled Behold it now transferred to the binnacle of the adventurous sailor, enabling him to launch far away upon unknown Oceans, instead of timidly sailing within sight of familiar land marks?

So with the discovery of the New World, upon whose shores was to arise this Giant Nation in power, a glory, a mission far beyond the conception of the wildest fancy The Old World had reached its highest destiny the "fulness of time" drew near for the revelation of the New, and behold the immortal Columbus, from the forecastle of his drenched and leaky vessel, found it! So with the invention of printing, of steam, of the magnetic telegraph Each of these had its own "fullness of time," marked, distinct and Providential

☞ IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED Most beautiful are the illustrations and proofs of this which are to be found in the history of the world We can trace them from the Mosaic dispensations down to the present hour, all of them teaching us the lesson and giving us the hope that *something yet better* to heal human maladies is at hand

That this principle is as true of Medical as of Physical science is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it—The

Graefenberg Pills,

are deemed by all who have tested them to be an inconceivable advance upon all other medical combinations and discoveries hitherto known, and they are announced as

THE GREAT REMEDIAL TRIUMPH

The inventor of these Pills rests his theory upon no school nor dogma of ordinary medical teachers. Planting himself upon the revelation of the

ALMIGHTY CREATOR,

THAT

"THE BLOOD IS THE LIFE,"

he requires that his disciples and his patients *make pure the life current* that leaps through their veins and arteries, before they can hope for a PERMANENT cure He asks the sanguine them and so can others, but bright and joyous health must come from a pure blood

But a most sad thought here comes in! So countless are the impositions which are practiced upon the public by pretenders, and so numerous and boastful are the medicines advertised, that the reader may be slow to believe in this Great Remedy A word therefore, on this point

In the first place, READ THE GRAEFENBERG GAZETTE. No matter how sceptical you may now be, that paper will convince you Thousands *have been* convinced in every State and Territory in the Union, and among them distinguished statesmen, jurists, clergymen, physicians, civilians The bare enumeration of their names would fill this page Let the reader send to the most convenient agency for a copy of the Gazette, which can be had

GRATIS!!

In the second place, TRY THE PILLS It will cost but the merest trifle, and will introduce you to a medicine which you will deem a blessing to the end of your days

A thousand things press upon the minds of the advertisers which they would rejoice to say to the reader but the limits of the advertisement forbid But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED!

Asthma	*Flatulency,*
Bilious Complaints,	*Fluor Albus, or Whites,*
Boil,	*Gastric Fever,*
Bowels, deficient action,	*Green Sickness,*
Breast Pang,	*Gripes,*
Catarrh	*Heartburn,*
Constipation	*Headache,*
Cough of Pregnancy,	*Hysterics,*
Costiveness,	*Incontinence of Urine,*
Diarrhea	*Indigestion,*
Difficult Breathing,	*Inflammation of vital parts,*
Dyspepsia	*Inflammation of the stomach,*
Dyspeptic Consumption,	*Jaundice,*
Digestion, imperfect,	*Liver complaints,*
Determination of Blood to the head,	*Low spirits,*
Ear Ache,	*Menstruation, Suppressed or painful*
Erysipelas,	*Nervous disorders,*
Epilepsy	*Neuralgia,*
Fever—Low, Nervous, Intermittent, Remittent	*Rheumatism,*
Fever and Ague,	*Stomach, various diseases,*
	Whites

In all bilious or chronic disorders, these Pills achieve the most wonderful triumph HERE THEY DEFY COMPETITION And as the susceptibility of the American constitution is to these diseases they are aptly styled by some

The Pill of the New World

Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES, CLEANSE AND AFFECT THEM THE STOMACH AND BOWELS MAKE THE URINE FLOW HEALTHILY AND CLEAR AND TO GIVE TONE AND STRENGTH TO THE SYSTEM

It is impossible within the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary success and spread of these Pills But REASONS DO EXIST, which have abundantly satisfied the minds of thousands in this country, and among them the accomplished Physicians, Jurists, Clergymen, and private citizens, male and female

☞ NUMEROUS CERTIFICATES of the wonderful efficacy of these Pills might be presented but a certificate in these days is scarcely worth the paper on which it is printed A few extracts from the correspondence of the Company, will, however, be given

FROM INDIANA

"Your enterprise is the enterprise of the day. Its magnitude will astonish its originators It is destined to effect a complete revolution in the medical world"

FROM A JUSTICE OF THE PEACE IN WESTERN N YORK

"I have sold a number of boxes to the citizens of this place They have given entire satisfaction, and they are destined to become the most popular Pill of the day"

FROM TOLEDO OHIO

address you at the instance of a friend who is making a thorough trial of your remedies and with complete success"

FROM A DISTINGUISHED GENTLEMAN OF BOSTON.

Gentlemen

I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say, that I have experienced the greatest relief from the effect of your Pills For many years I have suffered much from constipation, which had disarranged my whole system, and I have not known a day's good health for many years past and being an old man I despaired of ever again enjoying life, but a friend recommended me to try your Pills which I did, although without any confidence, the result, I am happy to inform you, has far exceeded my expectations, the cause of my suffering is entirely removed, and I feel my health and strength daily renewed, and I am satisfied that the merits of your Pills, when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day"

[FROM JUDGE ———, OF GEORGIA

SIR,

Since writing to you last upon the subject of my ill health I have been taking your medicines, and am pleased to say, that they have been of great service to me and if they continue to give me the relief I have already felt I shall bless the day you sent them I need not allude again to the sufferings I have before told you of but intend to persevere, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure I have heard of many instances in my neighborhood wherein they have performed some extraordinary cures"

FROM AN EPISCOPAL BISHOP.

Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own, and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the valuable discovery you have made in the production of your Pills I was induced to try them, from the philosophical manner in which you have reasoned on the subject, and I must do myself the pleasure, and you the justice to say, that I had no conception so speedily an effect could be arrived at. My complaint had been that of the Liver, from which I despaired of ever getting better; but since taking your Pills, I find my general health, spirits and appetite so much improved, that I hope to find myself able to endure, without bodily suffering, the duties of an arduous Profession. In future I will send to your agent for more Pills when needed. With great consideration and gratitude I am, &c

From every section of the entire country similar testimonials are daily received; but our limits forbid further extracts. ONCE TRIED, THE GRAEFENBERG PILLS WILL SUPERSEDE ALL OTHERS.

Dr. Townsend's

SARSAPARILLA,

The Most Extraordinary Medicine in the World!

This extract is put up in quart bottles, it is six times cheaper, pleasanter, and warranted superior to any sold It cures diseases without vomiting, purging, sickening or debilitating the patient

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates disease it invigorates the body It is one of the very best Spring and Summer medicines ever known, it not only purifies the whole system and strengthens the person, but it creates new pure and rich blood, a power possessed by no other medicine And in this lies the grand secret of its wonderful success It has performed within the past two years, more than 35,000 cures of severe cases of disease, at least 6000 of these were considered incurable More than

3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy,
7000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy,
8000 cases of Consumption,

and thousands of cases of diseases of the blood, viz—Ulcers, erysipelas, salt rheum, pimples on the face, &c. &c, together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c. &c

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures R Van Buskirk Esq, one of the most respectable druggists in Newark, N J, informs me that he can refer to more than 150 cases in that place alone. There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character. It is the best medicine for the preventative of disease known It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season

UNITED STATES OFFICER.

Capt G W McLean, of the United States Navy, and member of the New Jersey Legislature, has kindly sent us the following certificate It tells its own story.

RAHWAY, Jan 2, 1847

A year since I was taken with the influenza, and my whole system left in a debilitated state I was induced to try Dr Townsend's Sarsaparilla and after taking two or three bottles, I was very much relieved, and attribute it entirely to the said Sarsaparilla. I have continued taking it and find that I improve every day I believe that it saved my life, and would not be without it under any consideration. G W McLEAN

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood Three persons cured in one house is unprecedented.

THREE CHILDREN

Dr. Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—They were afflicted very severely with bad sores, have taken some four bottles, it took them away for which I feel myself under deep obligation. Yrs respectfully,

ISAAC W CRAIN, 106 Wooster st
New York, March 1, 1847

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all of the delicate diseases to which women are subject It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system as to produce subsequent relaxation—which is the case of most medicine taken for female weakness and disease

GREAT FEMALE MEDICINE

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption Barrenness, Leucorrhoea, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame Persons subject to weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us Several cases where families have been without children, after using a few bottles of this invaluable medicine have been blessed with healthy offspring

Dr Townsend My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described, I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me In a short period it removed her complaints and restored her to health Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public M L MOORE

Albany, Aug 17, 1847 Cor Grand and Lydius sts

OPINIONS OF PHYSICIANS

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union

This is to certify that we, the undersigned Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla and believe it to be one of the most valuable preparations of the Sarsaparilla in the market H P PULING, M D.,
J, WILSON, M D, R B BRIGGS, M.D.,
P F ELMENDORF M D
Albany, April 1 1845

The following is from one of the most respectable physicians on Long Island:—

Greenport, June 10, 1846

Dr. Townsend Dear Sir—It is with satisfaction that I say to you, that I have recently witnessed in several cases, the most beneficial results from the use of your Extract of Sarsaparilla Being engaged in the practice of medicine, I have prescribed it in several cases and never without benefit In the removal of diseases arising from a deranged state of the digestive organs, jaundice &c, it far excels any thing of the kind ever before offered to the public You will please send me two dozen, &c &c Respectfully yours

S C PRESTON, M D

RHEUMATISM

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic The astonishing cures it has performed are indeed wonderful Other remedies sometimes give temporary relief, this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen

☞ Hear Mr Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn The following is an extract of a letter received from him.

Dr Townsend—I have used one bottle of your Sarsaparilla, and I find it an excellent in its effects upon a chronic rheumatic pain to which I am subject, from an injury occasioned several years ago in a public stage. Please send me two bottles to the care of Dr Seymour. I have conversed with two of our principle physicians and recommended your Sarsaparilla. SETH TERRY

Hartford, March 12, 1845.

PILES! PILES!! PILES!!!

Dr Townsend's Sarsaparilla is no less successful in curing this distressing complaint, than for diseases of the Blood, Dyspepsia, Rheumatism and Nervous Debility Read the following.—

Dr Townsend Dear Sir—The effects of your Sarsaparilla are truly wonderful For the last six or eight years past I have been subject to severe attacks of the piles, during which I have suffered all the tortures of that complaint and have despaired of ever finding relief, except in death I have the pleasure to inform you "there is yet a balm in Gilead" I have used two bottles of your Sarsaparilla, and feel no remains of my old complaint I send you this for publication, and any person you may refer to me, I would be happy to inform of the benefit I have received at your hands

Yours truly, JOHN BALL, 42 Fulton st.
July 5, 1846.

CAUTION!

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, &c They generally put it up in the same shaped bottles, and copy our certificates and advertisements, claiming that theirs is far superior and four times stronger than Dr Townsend's, &c, hoping thereby to deceive the public Some use fictitious names, a few use their own; some of these unprincipled men publish counterfeit certificates, others have induced their brothers and other interested persons to allow the use of their names, to which they put "Esquire," to give them respectability The public should be on their guard, and look out for counterfeits.

From CONSTANT GUILLOU, Esq Attorney at Law, and Notary Public Philadelphia

"From personal acquaintance with Jules Hauel—an experienced and fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations On trial of them in my own family and some of them personally, I have more than realized these favorable anticipations,—they are, what they profess to be scientifically prepared and compounded I have at all times since my experience, been convinced of the great merit of the *Eau Lustral Hair Restorative, Shaving Creams, Nymph Soap*, and in fact, all the popular preparations of Mr Hauel

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public They are, in their way, invaluable

CONSTANT GUILLOU"

From DANIEL J. DESMOND, Esq, Attorney at Law, Consul General of Pontifical States, Vice Consul of Austria, Sardinia Portugal and Tuscany

"To MR. JULES HAUEL.

SIR—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony in favor of your different fashionable preparations On trial of them in my own family, and some of them personally, I do positively declare that they are what they profess to be, skillfully prepared and compounded I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste—I am fully satisfied of their intrinsic worth, and do heartily recommend them to all for the use and purpose they are intended Nothing can excel the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative It invigorates the hair and promotes its growth. The Shaving Cream is unsurpassed and decidedly excellent, being a fine and highly emollient composition—it does not smart or irritate the skin, while the Nymph Soap operates beautifully upon the pores of the skin, and cleanses it from all impurities The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay. They are in their way invaluable

"I have seen some of my friends who have used your Vegetable Liquid Hair Dye, its effect is really a wonder It dyes the Hair in an indelible manner in a few minutes, and the color of the hair is really beautiful, and none will detect the artificial colors, it is so natural Yours &c DANIEL J. DESMOND.

THE VEGETABLE PILE ELECTUARY invented by Dr A Upham, a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint the Piles, ever offered to the American public

Mark this it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either bleeding or blind, internal or external and probably the only thing that will There is no mistake about it It is a positive cure—*speedy and permanent* It is also a convenient medicine to take, and improves the general health in a remarkable manner

Each box contains twelve doses, at 8 1-3 cts per dose It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger— All external applications are in the highest degree disagreeable, inconvenient and offensive, and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source, and REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland, Me, March 14 1847

Dr UPHAM—My dear Sir — I cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary I have been a perfect martyr to the Bleeding Piles for 10 years past, so much so that I became reduced to almost a skeleton with loss of appetite, and general derangement of the digestive organs My eyes also became affected, and in fact I was a misery to myself. I was obliged to give up my business I had tried all kinds of medicine, had the best advice the Doctors in Boston and this place could afford, spent much money—and twice submitted to painful operations I had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine The first I found to relieve me slightly, still I persevered, and purchased a second and I assure you when I got half through, I found myself getting well, still I kept on, and now I am a well man My dear Sir, language cannot express the heartfelt thanks that I am once more restored to *health*, and now in a condition to support my large family, dependent on me
